ECW Press,Canada, Canada, 2013. Paperback. Book Condition: New. 206 x 132 mm. Language: English . Brand New Book. The Origin of Feces takes an important subject out of locker-rooms, potty-training manuals and bio-solids management boardrooms, bringing it into the fresh air of everyone s lives. With insight and wit, David Waltner-Toews explores what has been too often ignored as he makes a compelling argument for a deeper understanding of waste. Waltner-Toews shows how integral excrement is to biodiversity, agriculture, public health, food production, food distribution and ecosystems. It serves as a reminder that unless we change how we think about shit, we are doomed to live in it.
