

Introduction to Engineering Design: Book 9, 7th Edition: Engineering Skills and Hovercraft Missions (Paperback)

By James W Dally

College House Enterprises, LLC, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book is the seventh edition of the ninth textbook in this series dealing with Introduction to Engineering Design. Jim Dally, working with College House Enterprises and faculty members in the Clark School of Engineering, has prepared eight previous books in this series for the first-year engineering students of the University of Maryland at College Park. Several other Colleges of Engineering have adopted one or more of the books in this series to introduce design and engineering skills for their first or second year students. The design, build and testing of a hovercraft model, described in Book 9, is such an interesting and challenging project that this is the seventh year we have used it (twelve previous semesters) with approximately 7,000 students. The textbook is used to support the students during a semester-long project where they design and build a hovercraft. Content is covered with reading assignments and students use the text as a reference document for independent study. Exercises are provided at the end of each chapter. The book contains 17 chapters to present the many topics that first year engineering...
