Fleming H. Revell Company, United States, 2015. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book. Reese Clawson s work is mind-bending--literally. Her company specializes in global data analysis for an elite group of industry executives, and now a lucrative government contract is moving her into the realm of cutting-edge intelligence gathering. She is determined to crack the limits of consciousness--and in doing so, the boundaries of secrets and lies. But her experiment crashes as test subjects slide into a coma-like state. Reese is left scrambling to maintain control, drawing three disparate people into the search for answers--an adrenaline-amped thrill junkie with altered brain chemistry, an Italian scientist working on remote-viewing technology, and a math prodigy whose algorithms subvert computer encryption. Will this piecemeal team prevail when a government operative is sent to investigate? As the threads of perception and reality become tangled and even time itself twists in unexpected directions, one warning remains clear: what you don t know can kill you. With a concept so daring and writing so gripping, readers will swiftly fall under the spell of Thomas Locke s endlessly creative mind. This thrilling psychological journey into the very nature of causation and consciousness will leave them turning the pages and grasping for solid ground.
